

Triangle Bird Count

Route Data Form

**Only record 1 site per page. Use additional pages as necessary.
See Protocols for details of fields.**

ROUTE	Primary Observer <small>(conducts point counts)</small>	
	Others present	

Complete all fields for all sites

SITE	Site ID #			
	Date			
	Site start time			
	Site location <small>Describe location and access if site is new or moved, or if existing description can be improved. Otherwise write "same".</small>			
	Temperature (°F)			
	Wind level	none	light	moderate
	Noise dB (if applicable)			
	Noise level <small>(circle one)</small>	none	moderate	extreme

Use this section to

- detail observations of unusual birds (include all distinguishing characters used to make ID)
- provide more details of location or relocation of sites
- report interruptions, etc.

Begin any notes with relevant Site ID number.

NOTES	
--------------	--

Supplemental Observations Data Sheet

Record any species that you may happen to see that were not included in your point counts. This could include any species at the site (but not during count) or en route to count.
